PHILANTHROPIC HELL, CHAPEL HILL, Nov. 30, 1878. In the city of Raleigh on Wednesday, Nov, 27th, 1878, Hon. B. F. Moore departed this life. His death was not unexpected. Gradually had his giant frame, weakened by a long life of patient toil and study, succumbed to the ravages of age, for he had long since passed his three score years and ten. His death was gentle. The silver cord of life was gently untied by the hand of age. The orphaned bar of his native State laments its departed father. In the callings of life, civic and domestic, Mr. Moore was an ornament to the State.

No, Mr. Wood is the only man in the House who never forgets that he is its titular leader, and it is only when questions of grave import, such as motions to adjourn, are pending that he can make the rest of the House remember it. The House has a leader. It is Mr. Fernando Wood, of New York.

A GOOD DAY'S WORK. The passage of the Military Academy bill and the fortification bill today made a good day's work. On the passage of the Military Academy biil the ayes and nays were demanded The North Carolina members, it was observed, voted against the bill. The objection interposed was the appropriation of \$50,000, to provide the Academy with additional water supply. Representative Steele said he could furnish a man from his district who would supply the Academy with all the water needed for \$129,00. The negative votes were chiefly from the South and close districts in the West. THE FRANCHISE,

This reminds me of an anecdote. Bob press the resolution for adoption, after a mending it so as to provide that they decided to press the resolution for adoption, after a mending it so as to provide that the investigation shall be made by a special committee instead of the committee on the judiciary. It was also determined that a resolution shall be offered for discussion and action in the Senate declaring the entire validity of the constitutional amendments, and asserting the prepriety of enforcing them by appropriate legislation.

Democratic Senators take the posi tion that the Blaine resolution should be amended so as to refer to alleged violations of the laws or abridgements of the right of suffrage in both northern and southern states, and as thus amended they will vote for its adoption.

### THE INDIAN QUESTION.

Gen. Sherman was before the committee on Indian Affairs to-day. He said in substance that the army should either be transferred to the Interior department, or the Indian bureau to the War department; that under existing management the government was very heavily taxed, and "the poor Indian" was driven to the wall, notwithstanding. It was his epinion that in twenty years hence the American population would reach eighty millions, and as the population increased the Indian reservations would be required for cultivation, and the Ind aus should be cared for now in order that they might be prepared for this emergency. "The total number of Indians," he said, "is nearly 22,000, and under military management the greater number of them could be placed under civdian agents, always, however, retaining military power over them." In reply to a question with reference to the proposition of the Indian bureau to arm young bucks as soldiers or policemen, Gen. Sherman said it was his opinion toat the idea was ina lvisable, as it was simply arming a bitter enemy. In concluding his remarks, Gen. Sherman sa d, in his opinion, should the transfer be made, Indian wars would be unheard of. He thought all trouble could be foreseen and the danger of outbreaks prevented.

Correspondence of the News. HALIFAX, N. C., Dec. 31. The new board of county commissioners met and qualified yesterday, and proceeded to business at once, their first act being to elect Capt. W. H. Day, counsel for the board, by a unanimors vote. Capt. Day's high standing at the bar, and his popularit, as a speaker, is a sufficient approval of their choice. They then took up the bonds of our county officials in their order. The bond of Mr. John T. Gregory, Clerk of the Superior Court was passed upon and approved. The bond of Mr. Edwin T. Clarke, County Treasurer, was next offered and accepted. That of Mr. R. J. Lowis, Register of Deeds, was next offered and approved. Then than of Mr. Geo. T. Saunders, Clerk of the Inferior Court, was tendered and accepted. This brought the board at a late hour in the day to the bond of the Sheriff elect, Dawson. The trouble anticipated about this bond, had created no little excitement, it having been whispered that he would be unable to give the bond required by law. Mr. Spier Whitaker, having been retained by Mr. Dawson, now appeared for him. Mr. F. H. Busbee, of your city, being retained by certain tax payers, was also present, to see that bond was a good one. Capt. Day, counsel for the board, was duly at his post. It being late the board proposed to adjourn until to morrow. This was argued at some length by counsel, Mr. Whitaker stating that as Mr. Dawson's bind was undoubtedly a good one there could be no necessity of delaying the acceptance of it, then too some of his surities could ill afford to be here on to-morrow. Mr. Day as counsel for the board thou; ht that they ought not to except the bond offered until a thorough investigation had been had, more especially as the last sheriff had

### The Senatorial Controversy,

Hillsboro Recorder. The Raleigh News has been at the pains to collate the opinions of such papers as have commeated upon Mr. Merrimon's reply to the Raleigh Committee, the gist of the query propounded being whether he would submit to the decision of the Democratic Caucus?" We have been guilty, perhaps, of cupable ind fference to a subject grave enough to have enlisted the anxieties failen twenty-six thousand dollars be-hind, as ascertained by the members of so respectable a portion of the press, but have found an extenuation in the conviction that neither was the Senaof this board. The Recorder long a govery deci dedly expressed its preferences; and from them it has never withdrawn. But the Recorder at the same time emphatically dissented from the pro-position that the destinies of the Democratic party were so inextricably involved in the fortunes of either of those gentlemen as to wax or wave as they flourished or faded. Nor would the Recorder aumit the supposition that either of them were so warped by acceptance of the process bond, which a selfish ambition, or so venal in bewas made \$10,000, the same having the immediate object of us b en thoroughly discussed by the coun-set, p o and con. His other two bonds were laid over until Monday. There is no doubt but that he will give the pursuit, as to faher in adhesion to nence in the e-timation of their party friends, or that e.ther, under the force of disappointment, would counsel or encourage disaffection among their own immediate followers, or countenance any course which would bring disaster to the cause in which all the hop s of Southern peace and national ha mony are embarked.

We were therefore content, after sufficient emphatic expression of preference; to forego any farther agitation of the controversy, leaving it to be sett ed in its legitimate tribunal, convinced that the less there was of preliminary excitement, angry elements would sooner subside into calmness. And at religion at that place has just closed the risk of construction of apathethic indifference to what has so enlisted the zeal of our contemporaries, we of the exchanges are claiming General have maintained silence for some months, only broken now because of the renewed ardor of a freshly awakned enthusiasm for one or the other of the competing aspirants for Senatorial honors.

Merrimon-regards as the paramount object of his political aim the preservation the Brown Creek Association, will be held in Monroe, commencing on Friday before the fifth Sabbath in December.

and the growing power of the Democrat party, seeing that upon the fate of that party hangs the happiness of the South and the peace and prosperity of the Union. Every effort made by that party has been to wrest from the Republican party and put into practical use whatever had survived of Concivil law. Every effort of the Republican party has been to efface those Constitutional forms and displace the civil law by the military arm or the exercise of autocratic will. And, beaten down, and for a while turned back in tial success, and pushes on its hateful sion, unmodified in a single princi-

For the South now to halt, to hesitate, to divide, is death. It is to invite conquest and solicit subjugation, the more humiliating because it is confession of distrust in its own principles; and the more disastrous, because it welcomes back to power a party once driven out, and coming back with all the bitterness of malignant revenges and all the rapacity of a once thwarted

avarice.
Party discipline is the weapon upon which to rely to erect the wall of de-fence against such calamity. We believe that both Gov. Vance and Judge Merrimon are as much alive to the need of such wall of defence as the most solicitous party man can desire. We think therefore that the question need not excite the solicitude that has exercised some of our cotemporaries, and that the question whether Senator Merrimon, or any one else, will abide by the will soon be established between Pits-boro and Chapel Hill, and Post offices left with the Democratic party, conscious of its power and of its obligation to enforce all necessary rules of discipline, and to carry out its determinations unawed by the turbulent discontent of any rebellious recalcitrant.

DISEASES OF SWINE.

The Results of the Investigating Commission-Hog Cholera a Misnomer.

In accordance with the bill of last Congress, introduced by Senator Paddock, which appropriated \$10,000 to pay the expense of an investigation of the nature and cause of the diseases prevalent among swine, the commissioner of agriculture appointed competent gentlemen in the states of Indiana Illinois, Iowa, Nebraska, Kansas, Missouri, North Carolina, Virgigia and the western part of New York, who have been engaged in prosecuting their investigations, and have nearly all submitted extended reports. These reporis have been carefully collated and leductions made, and the results embodied in a report which will be made to Congress. From a hasty examination of the papers, it is evident that the theory that the disease is identical in all portions of the country, is established beyond doubt. It was also discovered that in all cases of disease among swine the lungs are affected. and also that the term "hog cholera" is a misnomer. From the character of the gentlemen engaged in the investigasion, including such names as Dr. H. J. Detmos, the veterinary writer of the Chicago Tribune, Prof. Law, of cornell university, Dr. D. W. Voyles of New Albany, Ind., Dr. Salmon, of North Carolina, and others, it is expected that the results of this investigation will prove to be of the highest importance in throwing light on a subject which yearly destroys a large portion of the revenue of the stock-raisers and farmers of the country.

Popular Wants-Again. Naturally suggested by the subject of our last article concerning public roads, is that of rail roads. But with regard to these, we have only present concern refer. with one feature of their character, which is the subject of freights, upon which there exists much popular irritation and dissatisfaction, not alto gether unreasonable, nor yet altogether just, but which will not be appeased without some heed being given to the general clamor, and examination made into the reality of exorbitant tariffs and unjust discriminations.

It is not too much to say that disap. pointment has followed the construction of every rail road in the State, if success were to have been measured by happy influence upon the fortunes of original projectors, or by the advantage expected to accrue to the revenues of the State, a large copartner in nearly all the enterprises undertaken within its limits. These original projectors sunk every dollar of their investments and most of them have long since ceased to be stockholders in the companies of which they were once a part. The State on some roads sold out its interest, in others abdicated its right of control; and it has come to pass that, with almost the single exception of the Western North Carolina road, now being resuscitated after exhausting sacritices; and the Western road, which survives to the stockholders, after heroic contest with the holders of its bonds, who had gotten possession of them by flagitious means or for insufficient or illegal consideration, the whole rail road system of North Caroforeign corporations.

It is natural, therefore; that our people fair dealing will be invoked to give them impartial hearing, not condemning simply because of alien domicile, or because these corporations succeed to our possessions, not through their crimes, but through our misfortunes. We must ask, and do so impartially, needless burdens upon traffic and travcessary discriminations, burdening one ities, while at the same time giving unreasonable facilities to other classes and distant communities?

In reply to the first, an answer might be arrived at if comparison were made between the cost of transportation before and since the introduction of rail reads. It would be found, that while traffic has vastly increased, its increase is owing to the greater economy of its transportation; yet that the increase in economy is not proportioned to the increased facilities of carriage; which facilities the people of North Carolina are not slow to see are enjoyed by, and enure greatly to the benefit of, our Northern and Western brethren, especially when quickened by the spur of competition. And they inquire, if roads elsewhere prosper under the low rates enforced by competition, is it not right that here they should be reasonably reduced to a standard more proportional to the pecuniary ability of those who are compelled to use-or who are now deterred from usingrail roads as the mode of getting their produce to market?

But while complaint is made of charges unnecessarily high, that complaint is intensified when the comparative charges on through and local freights are contrasted. Any satisfactory answer to this complaint has never been made. It is impossible to satisfy the common understanding that if hali a dozen combining roads can make money by carrying a barrel of flour a thousand miles, why cannot a single one of those roads carry the same in somewhat the same proportion? Or, if these roads lose money by those combinations, why they seek to reimburse themselves by making local traffic bear the whole burden? If those combinations to carry freight great distances for small rates are unprofitable, they should be abandoned; certainly it is unjust to tax local freight with a burden greater than it ought to bear. If the rates on through fleights are to be regarded as permanent standards, it is not possible to find a remedy for the complaint of high local rates by making a proportionate reduction; for it is self evident that in that case no rail road could afford to do it. But if they cannot afford to do it for local freights, how is it possible for them to do it for through freights? And thus it becomes conclusive that local interest are overburdened that distant ones may be fostered; and it is thus that the people ask for appropriate legislation.

They are included to regard rail roads as great public blessings. They entertain no hostility to the managers of rail roads. They comprehend the difficulties of management, and the exactions which competition make upon all the resources of sagacity and energy; but they do not comprehend why local intevests should be overslaughed, or why the communities for whose benefit the roads were more specially projected should be the least

favored recipients of these benefits. The complaints are too universal not to have foundation; too real, not to and gives the best satisfaction of any in the have suggested, without good cause, the desperate recourse some communities have had as a means of relief to wagon trains and private transportation. It is wise to investigate before discontent is exaggerated into animos- Vegetine is sold by all Druggists.

ity; and before a system intrinsically full of advantage, should be degraded in popular estimation into a curse.

Let the Legislature wisely and deliberately, without passion or prejudice, look searchingly into this question, which now, in its unsatisfactory aspect, is one of deep concern to the people. What rights that body may have in the premises are fully set forth in the Granger cases, decided by the U. S. Supreme Court, and reported in 94 U. S. Reports, to which here we can only

THE Lation may not be deedly corcerned about the Potter Committee of the House, charged with the exposure of Republican frauds, and the Matthews Committee of the Senate, charged with exposing the "cipher dispatches" published by the New York Tribune on the eve of the November election. Nevertheless these matters will and should be honestly and thoroughly itvestigated.

President-elect Tilden is gravely accused of attempting to held his lawful electoral votes in the South by venality. Acting President Hayes is charged with obtaining that office by fraud. These charges ought to rise above all party interests or mere partisan considerations. Nobody can seriously doubt that Hayes holds his place by the most unblushing frauds perpetrated in Louisiana and Florida. To what extent Haves has advised or aided, directly or indirectly, in the commission of this great crime against American institutions, and to what extent Mr. Tilden is implicated by the cipher dispatches, should be the subject of impartial and exhaustive inquiry. The genuineness of the dispatches and the fidelity of their translation, considering the discreditable source through which they reached the public, does not alter the case. Hayes may be innocent of the Florida and Louisiana frauds, but the country is interested in knowing to lina is now under the management of what extent he has rewarded with honorable and lucrative offices those whose claim consisted solely in services they should eye these with somewhat of a rendered in making the fraud successcaptious jealousy, and hold them to ful. If these charges are established, very strict accountability for such Hayes must be held as guilty as if he short-comings, or such regulations of had conceived, advised or aided directtraffic as may be construed to be op. ly in the crimes himself-as guilty as pressions. But the sense ef justice and the ballot-thieves who now hold government positions-as guilty, or more guilty, as the scoundrels who forged returns and defied the laws and the popular vote.

PROOF! PROOF!! PROOF!!! H. R. STEVENS, ESQ.:—
Dear Sir,—About a o years ago, a Cancer
made its appearance on my face, left sine
of my nose. When I first noticed it, 'twas of my hose. When I arst holiced it, twas about the size of a pinnead (very small), it increased in size, and spread on my face until it became as luga as a common cent. I tried aif kinds of remedias, and advice from a physician. It was spreading, and eating into my flesh very fast. I was very much ataimed. I went to see a physician who cured Cancers; he did not give me much encouragement. It valued me very much; I suffere high and day. It would breed to time very profusely. Everytoing was done that could be to fry to cure the cancer. By brother had a cancer on his lip; he submitted to an operation, being well discouraged I was one day in with woodberry's apolitecary store, of this town. He give me your pamphiet, contining many cures by the use of Vegetine. I found on page 19 where Vegetine and cured a cancer on a lady's rose. I then bought a bothe of your Vegetine and it proved a great blessing to me; I could see good effects from it right away. about the size of a pinnead (very smali). It could see good effects from it right away. After taking hree tooties, it stopped the spreading of the cancer about the ed e; it checked the eating into my flesh. I could see it was gradually he ling. I kept on taking Vegetine, the cancer slowly disappearing, until I had taken sixtern bottles audit completely cured it. It has left a large scar on one size of my nose; and I feel it my duty to recommend Vegetine to all like sufferers, as it is certainly a great 'Blood Purifier.' made concerning the who esale adulteration and poisoning of sugars by American refiners. Some of the firms engaged in this business affect to despise he charges, but the matter is reduced to a direct issue between the science of chemical and ysis and the veracity of the men who sell the sugar. It has been clearly proved that a large majority of sugars of cheap grade sold in pen market are poisoned. One of the chief adulterants is glucose, an insipidly sweet product derived from can, and worth from two to three cents a pound in the market. It readily as sumes all the external appearances of sugar, possesses no nutritious qualities, does not assimilate with the blood, and exercises a harmful eff et upon the kidneys. The trightful increase of mortality caused by Bright's disease, which has so sorely puzzled physicians, now attributed to the increased consumption of glucose as an adulterant in sugar. One very serious result of this wholesale adulteration of sugar is found in the large number of old and conservative refining houses that have been driven out of business during the past few years. No less than thirteen of the largest houses in New York have been forced to suspend on account of the doubtful methods employed by the newer and more unscrupulous houses. In Boston, where there used to be six refineries, there are now only two. In Baltimore, where there were three, there are now none at all. The entire business has been gradually concentrating into the hands of about a dezen colossal establishments in New York and Brooklyn, which if not prevented will soon cohere into one of the most powerful and fatal monopolies ever known in this country.

The report of Treasurer Gilfillan, besides a very clear statement of o her operations of the Treasury during the last fiscal year, contains one table of very great interest, which is especially important in its bearing upon certain measures now proposed at Washington. This table shows the comparative frequency of redemptions of bank notes of he different States and cities, and the remarkable fact appears that the entire circulation of Massachusetts banks is redeemed about once in nine months, that of all the New-England States at he rate of once in eleven months, that New-York and the Middle States at the rate of about once in two years, while the circulation of banks in the Southern States is redeemed about once in three and a half years, that of the Western States about once in four years, and that of the Pacific States even less frequently. It follows that the circulation of notes in Massachusetts is about five times as rapid as that of banks in the Southern and Western States. In whatever respect the value of circulation depends upon the length of time a note can be kept outstanding, the circulation of Western and Southern banks must be worth about twice as much as that of New York banks, and about four times as much as that of New-York banks, and about four times as much as that of New-England banks. A currency of \$390,000,000 would be actually more effective for a p pulation actually more effective for a population like that of Massachusetts, than a curtion like that of Kansas, or \$1,800,600, 000 for a population like that of Iduois, Minnesota, Nebraska, Wisconsin or Iowa. In short, what the West and South need is more economy in the use of currency, not more currency. They need more and safer banks and savings

A Wounded Soldier's Soliloquy. Senator Gordon, says a writer in the Atlanta Constitution, was wounded five times when fighting as a Colonel in the battle of Sharpsburg. The fifth bail, entering his cheek, brought him to the ground, and as he began to recover his senses this is the half dream and half solitoquy that he carried on: "I have been struck in the head with a six-pound solid shot. It has carried away my head. On the left side there is a ittle piece of skull left. But the brain gone entirely. Therefore I am ad. And yet I am thinking. How can a man think with his head shot off? And if I am thinking I cannot be dead. And yet no man can live after his head is shot off. I may have consciousnes while dead, but not motion. If I can lift my leg, then I am alive. I will try that. Can I? Yes, there it is; lifted up! I'm all right!' The General says that every stage of this soliloquy is indelibly stamped on his mind, and that in his exhausted state the reasonwas carried on as logically as eve man reasoned at his desk.

Since Washington's time no president has ended his administration with the same cabinent that he had at the start, and it is one of Mr. Hayes's ambitions to do just that thing.

Symptoms of a Diseased Liver.

)AIN in the right side, under the l edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss o memory, accompanied with a painfu, sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it, In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

GURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS

(Registered.) A BRIEF HISTORY: The following is from the Raleish News, and was a voluntary insertion and not an advertisement:

and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Sero'ula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section Achild was born to Mrs, Person, and it had the Scrolula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receip'. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well a d hearty. More than this: Only a tew months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel He had been to the Hot Springs in Arkansas, and from there he went to Kittell Springs. Not ling did him any good. At Kittell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs Person's recipe, and Dr. — wrote to Mrs Person's seeipe, and Dr. — wrote to Mrs Person's seeipe, and Dr. — wrote to dian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent hin directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shorely afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Biess these old indians. We would like to have one for a near neighbor."

AS A TONIC AND ALTERATIVE MOORESVILLE, IREDE: L.Co., N. C. Being desirous of adding my testimonia to others, concerning the merits of Mrs Joe Person s kemedy for Scrofuta, I take pleasure in saying that as a tonic and alterative I do not think it has an equal, I have fairly tested it, and after trying vegetine. Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hestration in propouncing it far smeetire from 14 10 11 have ever ing it far superior to any IONIU I have ever used. When I commenced using Mrs Per-son's Remedy I was very weak, complec-tion sallow, and now I am WELL, kespectfully your friend,

MRS, H, T, BROWN. Sept. 26. 1878,

THREE CHILDREN IN THREE WEEKS.

MRS. JOE PERSON :

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from nome for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all teat is within my power towards getting you patients for treatment of Scrowla. I hardly know how to express my gratitude to you for curring my three lettle chidren. They took medicine from my family physician for about two years, with scarcely any feliciated. I tried your remedy, and in less than three weeks they were all perfectly cared, and have never shown any sign of breaking out again. I feel very thankill to you. I can safely say that I believe your remedy to be a certain cure for Schofula. If I can ever be of any service to you many way, I want you to be sure and call on me, Yours truly, WM. H. ARKINGION.

It gives me much pleasure to be able to state that I nave derived an effectual cure of Scrofula from the use of Mrs. Joe rerson's remedy for that disease. I had suffered from Scrofula for more than three years, and had despailed of eve getting weft. I was treated curing that time by three very emine, t physicians, without any good result. I then went to the stational Surgleal Institute, at Arlanta, ca., and was treated there more than two months, with no better result than my family physicians met with. Aft rareturned from the institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I ansolvered its curative and healing properties, My sores soon began to head, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting went again, but my hopes increased, my low spiritedness hed before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken regularly on all meals, for I have sometimes neglected it, from the pressure of business, and in all cases found that the care all eady made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing snowly prevent regularity in the use of the remedy and it snould be taken regularly until an effectual cure is completed. Nothing snowly prevent regularity in the use of the remedy and it snould be taken regularly until an effectual cure is completed. Nothing snowly prevent regularity in the use of the remedy and it snould be taken regularly until an effectual cure is completed. Softing snowly prevent regularity in the use of the remedy and it and a der many and lasting obligations to Mrs. Ferson for the great relief I have obta 'It will Cure if Fairly Tested." further extensive improvements, as it is their ambition to make this the first Watering

Myreceipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and have no hasitation in recommending it as a sovereign cure for that disease and as a general fone and Blood furiner. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ulumately prove to be of benefit in all cases arising from impurity of he slood, and probably for other diseases,

A CASE OF CANCER. FAYETTE VILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:
Dear Madam—I have been using your Remedy for scrofula overfive months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper tip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine scemed to check it very soon, and it has not made much progress since, except anout two months ago, the medicine gave out, and I was without several days. It then it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cared me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart. an irregularity in its action. It would miss every the deat for hours, then at other times it would increase in its action, and run up to 20- beats per minute. Since using your medicine I am almost entirely refleved of this, rarely feel it, and then not enough to speak of it. I would recommend any one sunering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful alteratives known to the medical profession for the last I years and I know of none superior to this. I would need afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Hespectfully,

### Gypsies.

A large number of these queer people were in the city yesterday, on their way ling merit in their line. to South Carolina and thence to the far South. The party were about 25 in number and traveled in some half dozen vehicles. The usual led horses and dogs accompanied, and in the covered wagons were tents and cooking utensils, so that they can make a little village of their own at any time they choose. They are a singularly reticent people, and though notable thieves, never, by any chance, "give themselves How they live is almost a curiosity, but they are the sharpest traders in Christendom, and no yankee can touch them on a bargain.

They never tarry here and are only seen when making their nomadic pilgrimages. They are later than usual this year, having waited for the subsidence of the yellow fever.

up, and it is very gratifying to state that the Grand Body, though its repsentatives from every section of the State, show that their heart is in this great work and that they are determin ed not to relax their efforts in pushing forward this noble enterprise, which has blessed and made happy so many little ones. God bless and prosper the Orphan Asylum. The amount of \$500 from the sale of property at Asheville, in addition to an appropriation by the Grand Lodge of \$2000, was made for the benefit of the Asylum. A number of resolutions looking to the advancement of the Asylum work were presented by the committee on the Asylum, and adopted by the Graud Lodge. The following well deserved compliment to the Superintendent of the Asylum was passed by a rising vote of the Lodge: 'That the zeal and self-sacrificing devotion of the Superintendent ever evinced in the prosecution of the orphan work, in the many embarrassing and delicate situations in which his work has placed him, is heartily commended; that he is entitled to the thanks of this Grand Lodge, and merits the confidence of every mason in this Grand Jurisdiction. And also the following in reference to the late B. F. Moore: "We feel that we cannot close this report without an expression of feeling at the loss in the death of the Hon. B. F. Moore. He has ever been a friend indeed of our noble work. Words of cheer and encouragement, as well as an open purse, were ever ready to forward the orphan enterprise, and dying, he has left. besides the rich legacy of good deeds and kindness towards the work, a do nation in his will of one thousand dollars for the sustentation of the benefaction under our charge." Further Resolved, that: "There is no purpose on the part of the Grand Ledge to abandon the orphan work, but it is the determined resolution to maintain and support it with all the energy and vigor

#### our resources will permit.' AFTERNOON SESSION, The afternoon session was occupied in reports from standing committees.

EVENING SESSION. The newly elected officers were installed by P., G. M. Blount, as were the following officers who were appointed by Grand Master Cox: J. C. L Gudger, Deputy Grand Maser; J: E. Mann, Grand Chaplain; A. D. Cohen, acting as proxy, Mr. Mann being ab-sent; A. M. Noble, Senior Grand Deacon; C. H. Robins n, Junior Grand Deacon; James W. Reid, Grand Sword Bearer; John W. Cotton, Grand Marshal; W. H. Smith, Grand Pursuivant;
